PRICE LIST OF GLADIOLUS BULBS FOR THE SPRING OF 1936.

As in former years, I present for the spring of 1936 a list of a few of the better known varieties of Gladiolus. Vast improvements have been made in the last few years, and many worthless varieties have been foisted on the public because the seller had a name and a high-priced catalog. All bulbs are home grown and the varieties listed have been tried and found to be dependable sorts for the home gardener. A few good cut-flower and exhibition varieties mean far more enjoyment and satisfaction to the grower than a large number of un-tried, indifferent sorts.

SIZES. Large is $1\frac{1}{2}$ inches or larger in diameter; medium is $\frac{3}{4}$ to $1\frac{1}{4}$ inches; small is $\frac{1}{2}$ inches or less.

PRICES. Three at dozen rates; 25 at hundred rates. SALES TAX is 3¢ on each dollar.

SHIPMENT. As soon as weather permits or later as wanted. Safe, prepaid delivery guaranteed. Offers subject to prior sale. Any stock not true to name will be replaced. Order now and pay just prior to shipment or have your order shipped C. O. D.

INSPECTION. All stock has been thoroughly inspected by the State Department of Agriculture, Division of Plant Industry. No apparent sign of either thrip or other diseased conditions were found. CERTIFICATE number 1444.
